Boatboy Marine Training is proud to offer Women Only Training. April 2003

For immediate release—Boatboy Marine Training, a three-year-old rapidly growing company, has announced their latest safety training, which targets Women Only Boaters.

“Boatboy Marine Training realizes the importance of providing training for women who, are a significant component of the boating community, and typically do not receive an adequate opportunity to handle their family’s boats.” says Capt. Russ Cohen, general manager of Boatboy Marine Training. “Often women are thrust into a situation that may require them to take command of their vessel during a crisis or emergency. We believe that if women were trained on how to operate their boat, use the radio and know basic navigation, their family’s boating enjoyment and safety would be greatly enhanced and more fun for everyone.”

This latest course includes training for women on their own boat or ours. “Why not get together with the wives on the dock and pick a boat to be trained on and give us a call.” Says Capt. Russ. “It’s always a great learning experience and a lot of fun! Watching their husband’s expressions as we leave the dock is priceless!”

These courses are in addition to Boatboy’s continuing line of personalized boating services. Boatboy Marine Training provides “on-water” instruction by USCG Licensed Captains who will come to a customer’s dock and train them using their own boat on their waterway. The instructors will teach students basic knowledge on safety equipment, docking, close quarter handling, safe boat operation, wakes, high speed, rules-of-the-road, navigation, fueling and anchoring. Other products and services offered by Boatboy include: boat delivery, hauling, captain for a day service, training to marinas and dealers, standard or customized instruction as well as a waterproof laminated safety and emergency handbook.

Boatboy’s staff has over 20 years of marine industry experience. All instructors have a USCG Masters license and additional certifications including sailing and towing endorsements, teaching certificates, and charter experience. Our instructors have been trained in CPR, First Aid, Power Squadron and United States Coast Guard Auxiliary classes.
